

Delivery can be arranged at a cost depending on availability. Otherwise pick up is from Keysborough.

If you choose to pick up your cake, the best place to store it is actually the clean, empty boot of the car as it is the flattest area. Non-skid mat will be provided to ensure your cake doesn't move. But please drive carefully – pretend you have a new born in the back seat!

Always take the cake inside as soon as possible as you don't want a melted cake in your boot.

The cake does not need refrigeration as I do not use fresh cream fillings.
